

SUMMER LEAGUE 2011

Entry fee \$60.00

All shooters:

It's SUMMER LEAGUE TIME. Come and join us for a fun time at the range.

We will shoot 10 weeks starting on 5 July and ending on 6 September. Each shooter should try to shoot with his/her assigned team. Team shooting is much more fun than individual shooting. Pre shooting is allowed at any time but *post shoots must be accomplished prior to start of the next week shooting*. There will be **NO** post shooting for the 10th week. A dog score will be assigned if you have not pre shot for or shoot on 6 September. A dog score is your average minus 2 birds per round.

If you must miss a week you can pre-shoot any time you are at the range. All pre shoot score sheets must indicate on the sheet that this is a pre shoot score and if you want it to count for a particular week, so indicate on the score sheet.

Post shooting must be completed prior to 1800 hours the next Tuesday.

Please indicate on your score sheet that this is a post shoot for week XX. All pre and post shoot score sheets must be pinned to the score board in the club house. If you put them on the table they tend to blow off onto the floor and I sometimes find them and sometimes I do not.

Handicap scores will be computed in the following manner: Handicap will be based on 100% of a 24 average (raw score). Maximum handicap score will be 26. If you shoot a perfect (25) round no handicap will be added. However if your handicap is 2 and you shoot a round of 24 your handicap score will be recorded as 26. If your handicap is 3 and you shoot a round of 24 your handicap score will still be recorded as 26. Your handicap for weeks 1,2 and 3 will be determined by your first 100 league targets (weeks 1 & 2). Handicap for weeks 4-10 will be determined by total league targets shot.

This league is conducted in accordance with NSSA rules.

Due to quite a few shooters not shooting with their team or pre/post shooting I will be assigning dog scores as indicated above.

All shooters scheduled to shoot on the later rotation (if applicable) should show up early. The second squad is required to pull and score for the first squad. Please have someone here to do so. If a third squad is going out please have someone from the second squad pull for the third squad.
