General Overview

(See Following Page)

Concealed Carry: Beyond the Basics

Concealed carry involves a variety of tasks beyond understanding the legal aspects of being armed in public and shooting a qualification course. Students who take this course will feel much more prepared for the demands of concealed carry when they finish. Getting a Weapons license/ firearms permit requires only a minimum of qualification and education; we teach you how to be safe and effective while armed.

It is designed for those who have completed a state required concealed carry course or who have experience in carrying a concealed weapon and have asked the question – “What’s next?” This course is for those who want to know more than how to fire a weapon, but are not interested in SWAT or military tactics. The methodology of this course consists of a series of non-traditional shooting tasks, inert weapon drills, and role plays.

The class is one day (eight hours). A one hour lunch break will be taken. Cost is \$200 plus applicable range fees.

Shooting Tasks (derived from actual incidents)

- Scenario re-enactment
- One hand shooting
- Shooting while encumbered by people and objects

Non-shooting Tasks (Avoid, Escape, Confront)

- Situational Awareness and Surveillance Detection
- Interacting with others while armed
- Presenting the weapon without shooting
- Weapon storage away from home
- Dealing with Law Enforcement

Requirements

- Students should be able to draw from a concealed holster and hit a silhouette target at 5 yards in 3 seconds or less.
- Serviceable handgun of any caliber, holster or acceptable off body weapon carrier, at least 2 magazines or speedloaders, and a carrier for spare ammunition.
- 200 rounds of ammo, including 20 rounds of carry ammo.
- Inert gun of carry weapon, barrel insert, or training barrel for your weapon.
